# Enjoy every

Welcome. You're about to enter a place where serenity and peace reign. All things relaxing, soothing and good live here. Stress and anxiety are somewhere else...far, far away. Your aching body will find restoration here, and healing waters will massage and renew your sore muscles. They say the fountain of youth exists only in myth. We say, they just haven't been here.

This is the world of Vita Spa...and it's much closer than you think. Only foot steps away...just outside your own backdoor.

# moment

# Vitajoy.

**It's a feeling... a sense of total satisfaction.**

Hard to describe, but you know it when it envelops you. The cares of the day are washed away and you enter into that soft, easy place. And, like magic, the load that was pulling at you suddenly dissolves away...in thousands of tiny, friendly bubbles. We call it Vitajoy.

**Perfect company.**

Think about it. You run around all day, on company time, racing the clock. When you're not standing on those sore feet, you're seated in that very un-ergonomic company chair. Before you know it, another day has flown by. Another one, swallowed up by the rigors of work.

But suddenly, you smile, because you know the night is all yours. Alone or with your favorite company, your sanctuary awaits you. It's 6:30 and your world is about to change. It bubbles, it soothes... and it feels good - it's Vitajoy.

It's okay, it has been a long time and you deserve it.

# Performance

## Heat, buoyancy and massage

It's called Hydrotherapy, and it's at work in all of our spas. Hop in, shift gears and let the world stand still, just for awhile, you deserve it. So much more than just a hot tub, a Vita Spa is like a personal masseuse.

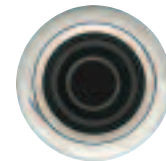

## These jets were made for healing.

Whether it's the stress of the day, sleepless nights, overworked muscles or inflammation of the joints, Vita Spa's jets were designed to heal. Think of them as the strong, agile fingers of a seasoned masseuse waiting to work those kinks away. Our jets are performance driven and completely adjustable to satisfy your own individual desire. Be it light, swirling massages, to deep penetrating ones, pulsating jet streams or a soothing whirlpool action, once you experience the natural healing power of our jets, you'll be left wondering how you ever got by without them.

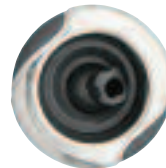

### Ultra Blaster

It's an appropriate name as this jet provides a simultaneous super blast of 14 soothing jet streams. This jet works perfectly as a sore back remedy. It's like 14 jets in one!

### Turbo Whirlpool

Magic is what this powerful performer works, making knots of tension disappear. Also used to create whirlpool action in the spa.

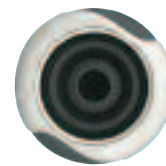

### Select-A-Swirl™

Swirling or direct, on-the-spot massage. Which would you prefer? With the Select-A-Swirl's fully adjustable jet, the selection is yours.

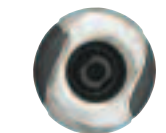

### Twin-Spin Pulsator

Imagine streams of water shooting at random, kneading sore muscles and joints with an invigorating, pulsating massage. The experience is truly remarkable.

### Vortex Stream Plus™

A powerful jet that results in strong, even vibrations that soothe even the most overworked muscles.

### Tension Ease

Indulge yourself as this powerful massaging action penetrates deep into your upper back, neck, and shoulders, where your body is most affected by tension. Individually adjustable for maximum enjoyment.

### Cluster / Acupressure

These jets are team players, which is the reason they appear in groups of two or more. Cluster jets provide a vigorous, therapeutic, pinpoint of pressure. With a twist of a finger, its pressure can be adjusted from a strong stream to a calming, soothing massage.

# Commitment

A stress free experience all the way around.

You've made the right choice.

**At Vita Spa, we pursue perfection in all that we create.**

The focus of everything we do at Vita Spa is on You. The full and complete satisfaction of our customers is our objective and the result is evident in every spa that rolls off our factory floors. When you purchase a Vita Spa, you can be sure you've made one of the smartest and most worthwhile purchases possible. For over four decades, we have been at the forefront of the hydrotherapy industry in innovation and technology and our spas are rated amongst the best in the world.

Vita Spas can be found in more than 400 retail locations nationally and 50 countries internationally. Your well being, peace of mind, and ultimately, your stress free ownership, are our objectives.

**Best of Class**  
Spasandhottubs.com is an independent organization which rates spas.

Five star rating from  
poolandspa.com

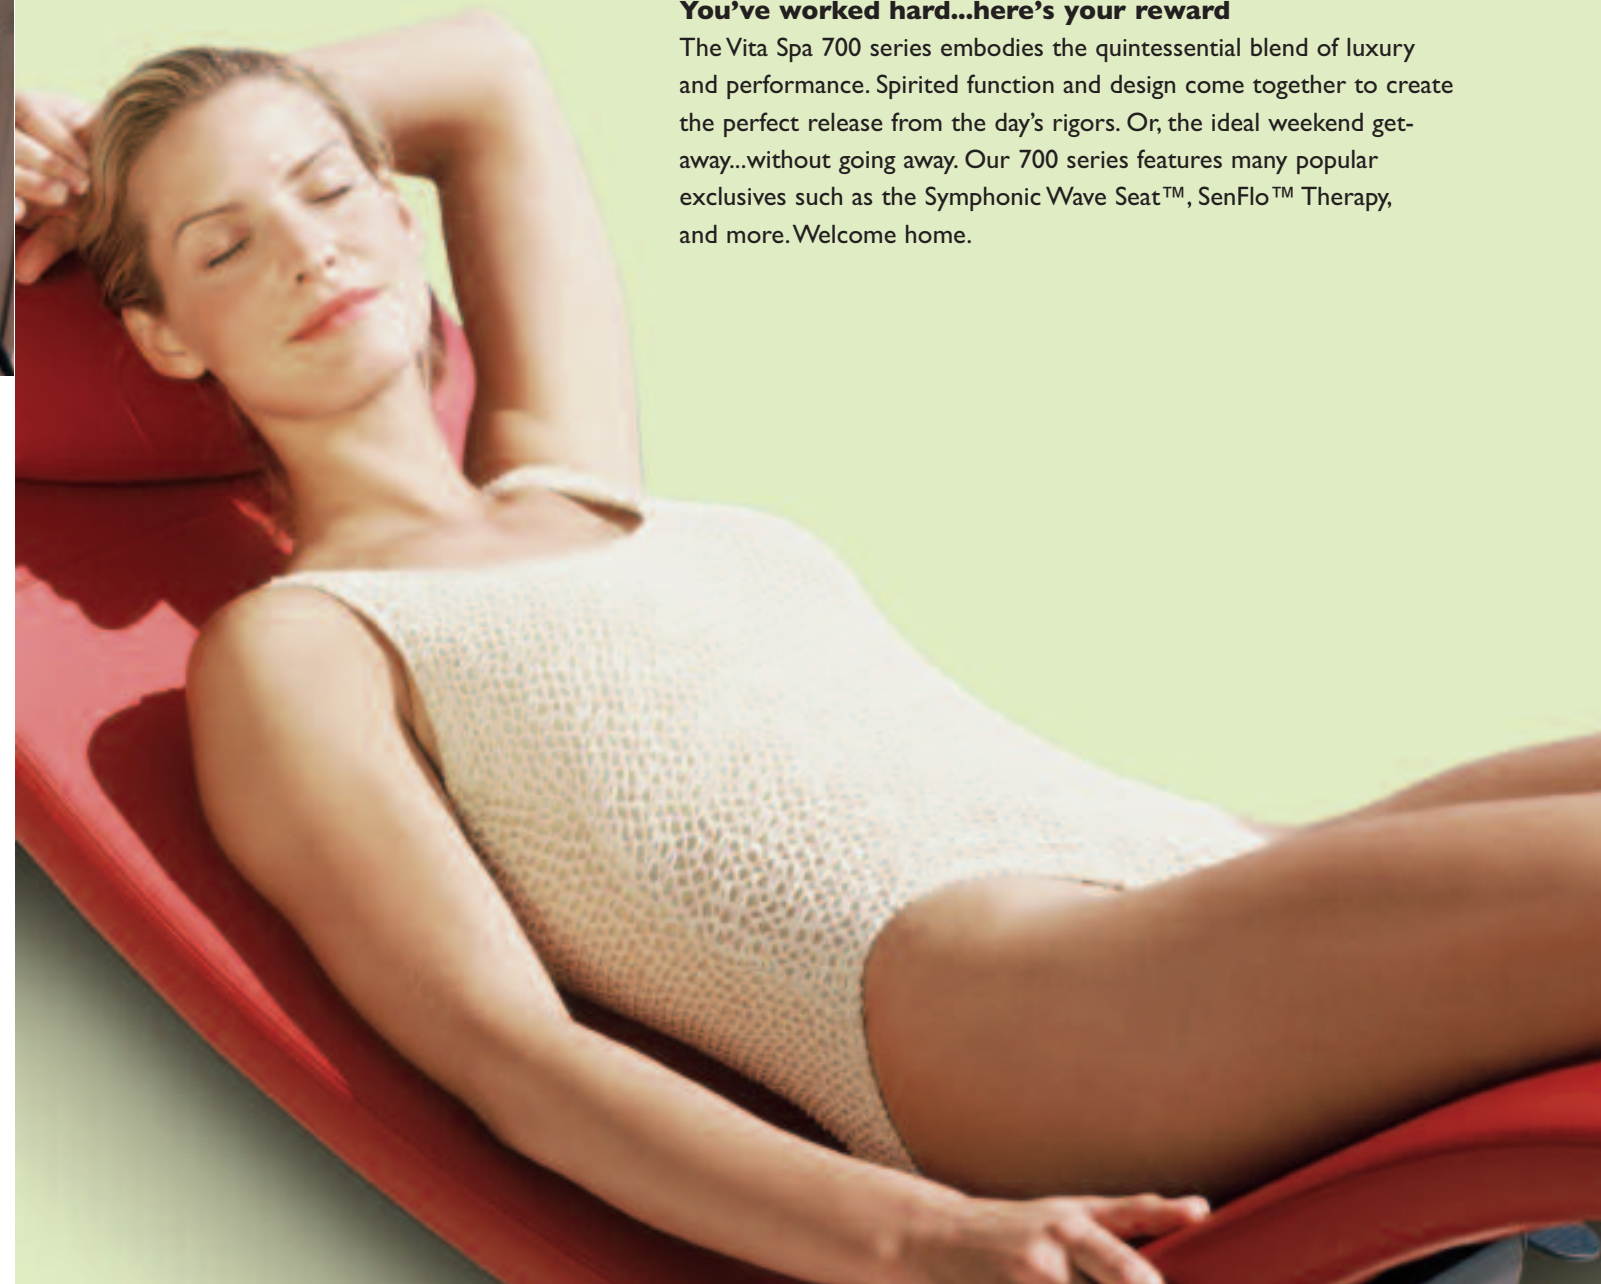

## 700 series

Discover inner peace in our finest.

**You've worked hard...here's your reward**

The Vita Spa 700 series embodies the quintessential blend of luxury and performance. Spirited function and design come together to create the perfect release from the day's rigors. Or, the ideal weekend get-away...without going away. Our 700 series features many popular exclusives such as the Symphonic Wave Seat™, SenFlo™ Therapy, and more. Welcome home.

Product lineup | 700 series

## Mystique

Every feature, every curve, every seat, every detail of the Mystique is designed with you in mind. Appointed with a multitude of fountains, cascades and lighting enhancements, the Mystique is a marvel of function and technology. Nearly a full 8' x 10', this spa is truly a spa for the ages. An air induction system will soothe your body with soft caressing bubbles and the lounge is equipped with our exclusive Symphonic Wave Seat feature. There is no mystery, this is the spa for you.

## Rendezvous

With seating for up to 7 people, the Rendezvous is powered by three high powered jet pumps. It features 74 jets with water features such as waterfalls and 2 fountains. This spa boasts exclusive features such as Aromatherapy, the Symphonic Wave Seat, and SenFlo™ therapy making this spa exceptional in every way.

Shown with optional stainless steel jets and simulated AquaGlo.

# Submerge yourself in purity.

## It all begins with water.

Pure and clean. We've taken our cue from Nature. It's called BIOzone™. By combining the benefits of ozone and Sparkle Clear™, our exclusive filtration system, the water in a Vita Spa is as fresh and pure as a natural spring. The purification process starts with 100% continuous filtration. This means all the water is continually being filtered and purified. Water quality is one of the most important features to consider when evaluating a spa and we've taken great care to provide you with the purest and cleanest in the industry.

## The Vita Spa Filtration System

Our dual filtering system ensures that all of the water passes through the filter before it re-enters the spa. The first filter is dedicated to the powerful jet pumps, which rapidly circulates large amounts of water back into the spa. The second filter, works with the 24 hour circulation pump, incorporating our special cartridge element which filters out debris and particles as small as two microns in size. During filtration, our Sparkle Clear™, natural mineral system sanitizes the water using zinc and silver, the same minerals used by mother nature in her babbling brooks. The ozonator oxidizes bacteria in the water. We have designed a special mixing chamber to maximize and prolong the effectiveness of the ozone (O<sup>3</sup>). What does this all mean? Crystal clear water, minimal maintenance and a healthy, purifying experience for you. (Standard on all 700 series spas.)

- 1. Water passes through Sparkle Clear™ cartridge
- 2. Water flows through specialized pre-filter cartridge
- 3. Primary and secondary jet pumps
- 4. 24 Hr H.E.E.T.™ circulation pump
- 5. Integrated Control System with Worry-Free Heater
- 6. Ozonator
- 7. VitaZone injector and mixing valve
- 8. Ozone Bubble Buster

## H.E.E.T: High Efficiency Energy Transfer

### Vita Spa built to handle the cold.

The last thing that should be on your mind while enjoying your hot tub is your electric bill. Good news! Thanks to our exclusive H.E.E.T.™ (High Efficiency Energy Transfer) system, Vita Spa is the world's most economical spa to operate. It sounds complex, but it's really very simple. The H.E.E.T. Stick™ forces water through a maze of baffles that generate heat due to water friction, which is then transferred into your spa. This all happens while the circulation pump filters your spa.

We refer to it as  
FREE heat.

## Exclusive features.

### VitAroma

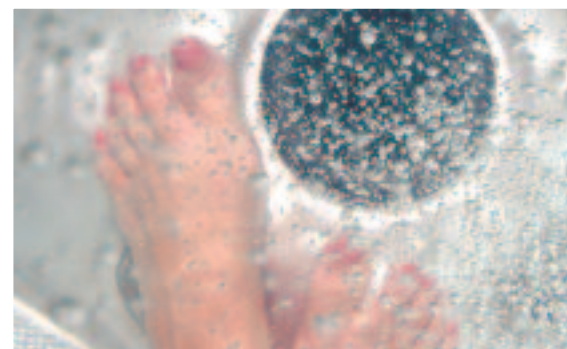

Aromatherapy revisited. Specially designed above the water jets infuse the air with fragrance, sedating the mind, arousing the senses, easing the body, leaving behind no oily film or residue.

Would you like to sit in a meadow of wild flowers? Drift on a pillow of lavender? VitAroma can take you there. By using the extracts of pure essential oils from herbs, plants, and flowers, we've incorporated the health-promoting qualities of aromatherapy into our VitAroma air massage therapy. Drop any one of our eight aromatic fragrance canisters in the VitAroma dispenser and the fragrance fills the air. It's as simple as that.

### Ergonomic Pillows and more

At Vita Spa, we strive to seek innovative features which will enhance your spa experience. With custom-fitted pillows that cradle your head in comfort, to ergonomically placed cup holders, you're sure to say that we've thought of everything.

### Sometimes it's the little things

Like SenFlo™, a Vita exclusive which uses Sen modules to massage and stimulate feet and hands. Experience the amazing feeling of SenFlo Therapy.

### Truly in control.

Like most spas, our control pad allows you to turn on your spa, control heat, and its jets with a simple touch. But it doesn't stop there, The advanced technology provides you with many key features to enhance the use of your spa. Features such as our reversible display, which allows you, with a simple touch of a finger, to reverse the spa panel so that it reads from the inside or outside of the spa. You can actually program the exact day and time of filtration and heat for those party nights, our control lockout feature ensures that your spa settings stay yours.

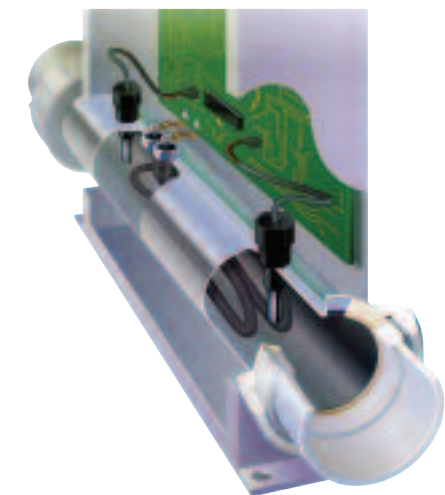

### Deluxe Spa Control Pad

The industry's most imaginative and technologically advanced control system. On-screen graphics and easy-to-read text makes this new control pad a consumer favorite. Standard on 700 Series.

### Standard Spa Control Pad

Far from ordinary, this consumer friendly control pad offers high tech features, while easy to operate.

### Powerworks™ with M7 Technology

is a revolutionary new hardware/software platform that completely eliminates mechanical sensor switches and remote through-wall temperature sensors. The M7 platform features two identical solid state sensors that mount inside the heater manifold. These "Smart Sensors" accurately and reliably measure water temperature while monitoring critical water conditions without the possibility of failure due to mechanical switch malfunction.

# Look Inside.

## Superior quality inside and out

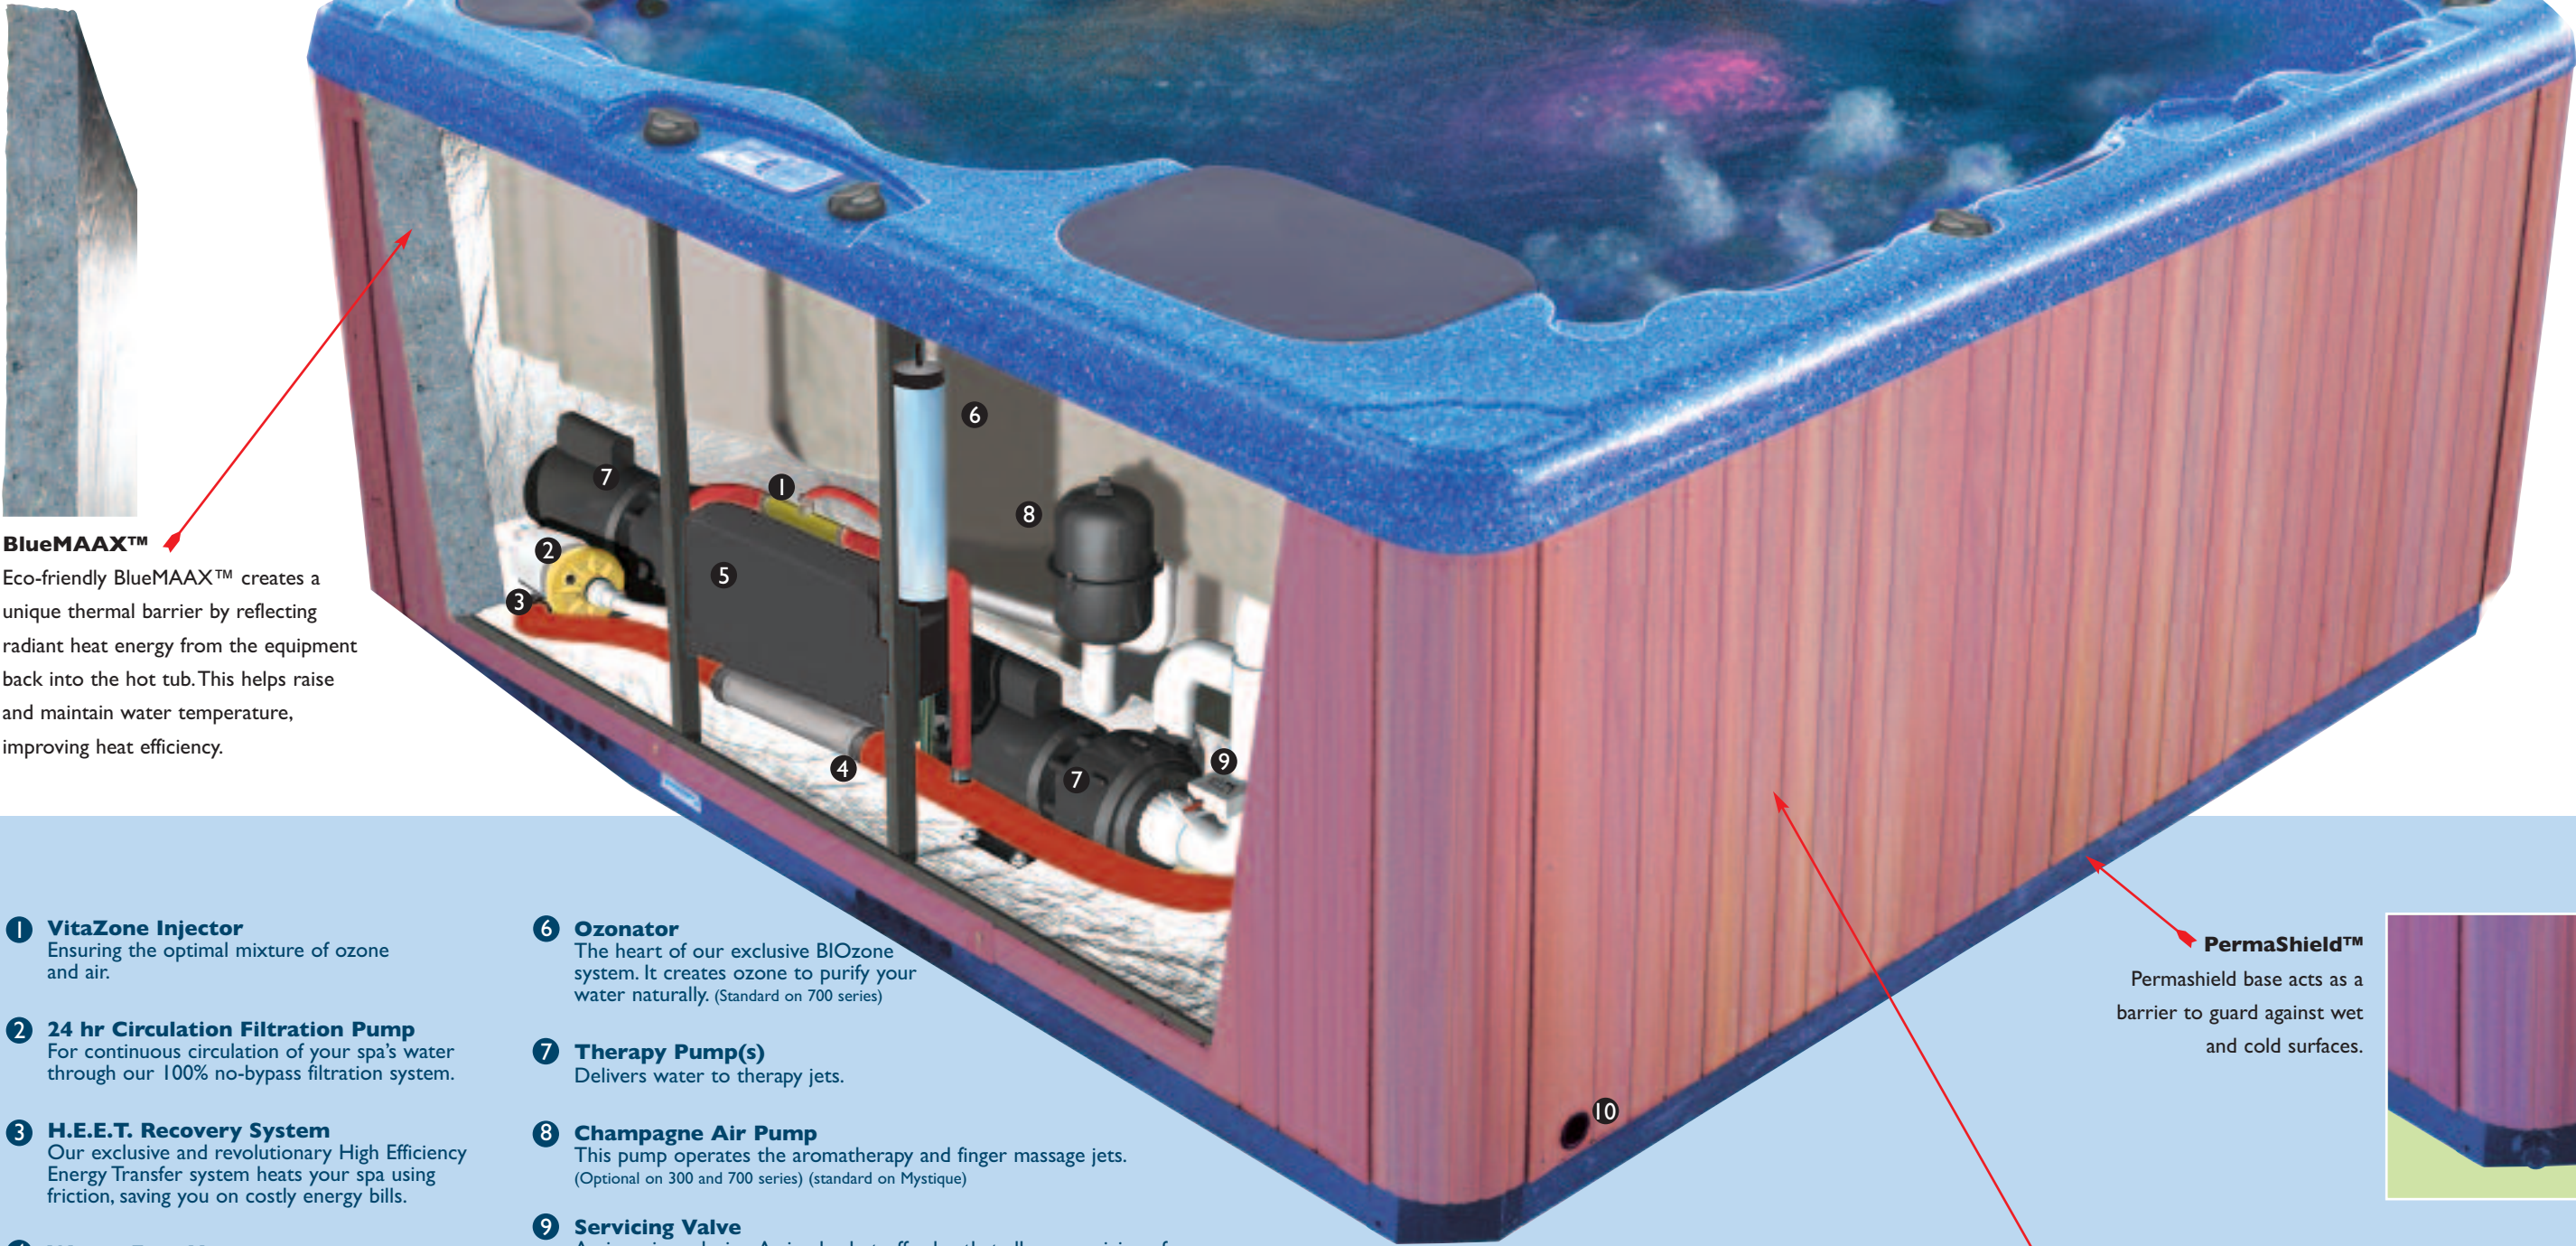

Our engineers have spent exhaustive hours equipping each of our spas with exclusive technological advances and a host of extraordinary amenities. Amenities and technology that not only enhance your lifestyle, but also ensure your peace of mind.

### Colors

Your Vita Spa is available in eight vibrant colors to complement the beauty of its design.

Left to right: Desert, Sahara, Denim, Oyster Opal, Midnight Opal, Silver Marble, Quartz, Gypsum, Cinnabar, Cobalt

**BlueMAAX™**  
Eco-friendly BlueMAAX™ creates a unique thermal barrier by reflecting radiant heat energy from the equipment back into the hot tub. This helps raise and maintain water temperature, improving heat efficiency.

- 1 VitaZone Injector**  
Ensuring the optimal mixture of ozone and air.
- 2 24 hr Circulation Filtration Pump**  
For continuous circulation of your spa's water through our 100% no-bypass filtration system.
- 3 H.E.E.T. Recovery System**  
Our exclusive and revolutionary High Efficiency Energy Transfer system heats your spa using friction, saving you on costly energy bills.
- 4 Worry-Free Heater**  
Our sophisticated isolation coating provides "no worries", regardless of whether pH is maintained or not.
- 5 PowerWorks™ with M7 Technology**  
Your Vita Spa's brain center; controls everything from the ozonator to your spa's pumps.

- 6 Ozonator**  
The heart of our exclusive BIOzone system. It creates ozone to purify your water naturally. (Standard on 700 series)
- 7 Therapy Pump(s)**  
Delivers water to therapy jets.
- 8 Champagne Air Pump**  
This pump operates the aromatherapy and finger massage jets. (Optional on 300 and 700 series) (standard on Mystique)
- 9 Servicing Valve**  
An ingenious device. A simple shut off valve that allows servicing of your spa without the need to drain the water, saving time and inconvenience. (Available on 700 Series.)
- 10 Quick Drain**  
Hose connection for quick and complete water drainage.

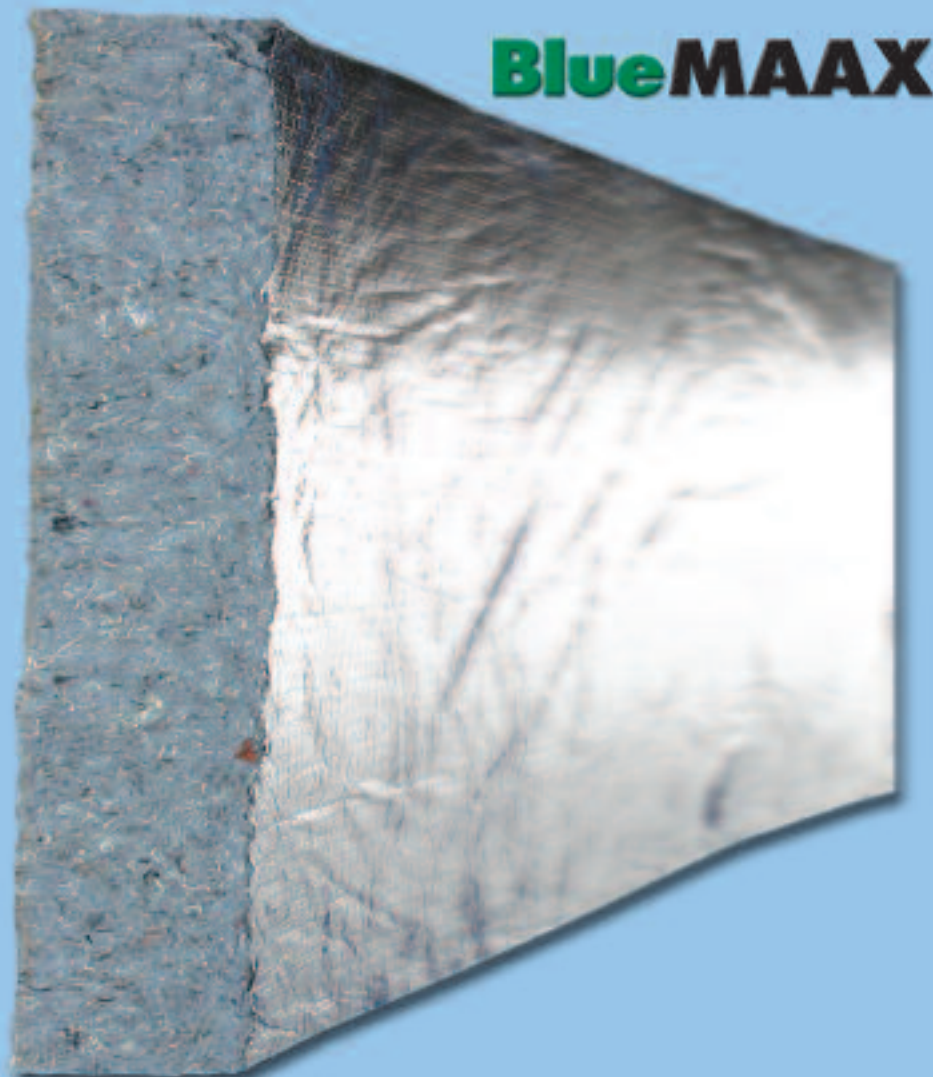

**PermaShield™**  
PermaShield base acts as a barrier to guard against wet and cold surfaces.

**Excel-X™**  
Made out of high impact styrene, Excel-X™ looks and feels like real natural wood. Excel-X is ecologically friendly, doesn't weather or stain, and is virtually maintenance free. Doesn't that make you feel better? Available in Teak, Gray and Mahogany .

# Vital Energy

The Vital Energy insulation system features the eco-friendly 'BlueMAAX®' insulation. Made from recycled natural fiber it is approved by the U.S. Green Building Council. The insulation contains no chemical irritants, is treated with a borate-based solution to prevent mold/mildew growth, pest infestation, and acts as a fire retardant. BlueMAAX® replaces urethane foam commonly used in "foam filled" hot tubs. The "foam filling" process in conventional spas can produce as much as 50 lbs. of volatile organic components (VOC's), which are harmful to the environment. Our new energy efficient system also allows for easy service access and can be re-installed to factory specifications within minutes.

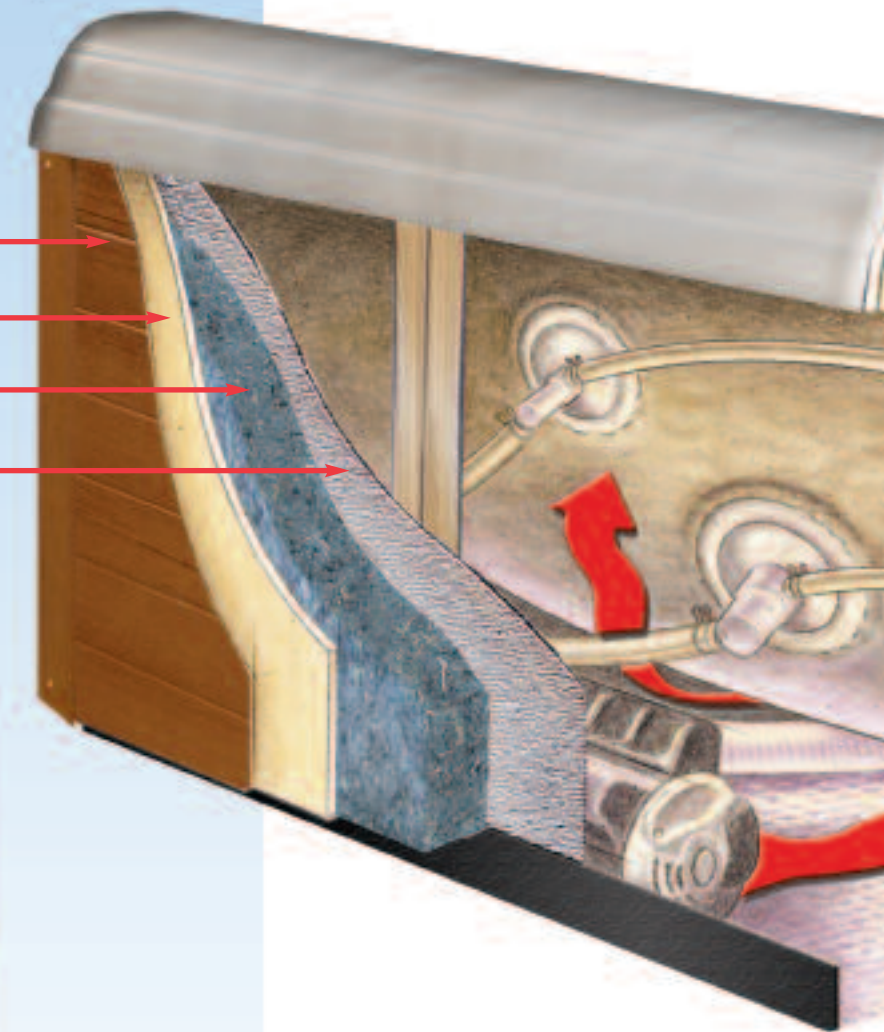

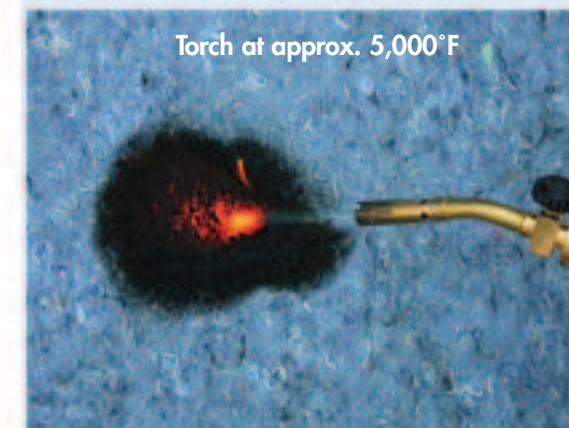

**BlueMAAX**

Vital Energy is the ultimate in sound and heat energy management for your hot tub. The unique thermal barrier technology recycles radiant heat energy for faster, more efficient heating and energy cost reductions. Radiant heat reflective insulation is applied to the sealed ABS base, which prohibits heat loss through the floor. All four sides, plus the floor are lined with reflective material, combined with BlueMAAX® to create an infrared thermal barrier. Heat energy radiates from the pumps and equipment reflecting the energy back to the spa and the plumbing. This helps raise and maintain water temperature, improving heat efficiency. Energy created by the spa stays in the spa.

- Excel-X® Siding
- Recycled Substrate
- BlueMAAX®
- Radiant Heat Reflective Insulation

# Features and Choices

creating the perfect spa

## The Symphonic Wave seat

Pinpoint the parts of your body in need of most relief with accurate precision. Zone-by-zone, this seat sequentially provides a vigorous massage directly to the neck, shoulder, and upper and lower areas of your back. Controlling speed and sequence is as simple as a touch of your finger tip.

*Standard on the Rendezvous and Mystique.*

## The Zone.

Each zone has been painstakingly designed to provide you with intense relief and absolute pleasure.

**Zone A:** Targets neck and shoulders, relieving stiffness.

**Zone B:** Directs a vigorous massage to the upper back.

**Zone C:** Targets sore, strained middle back muscles.

**Zone D:** Relieves lower back pain.

## Just the way you want it

It's the details. The little things...that make for the perfect spa experience. And since everyone's idea of pure serenity is not exactly alike, we present an array of choices and options to help ensure you enjoy your Vita Spa to its fullest.

*(Pop-up Speaker Optional on 700 Series)*

## Vita Tunes & Surround Sound

Our thoughtful amenities and superior options provide a level of luxury and pleasure that transcend to every sense. Case in point, the auditory indulgence of our optional SONY stereo systems. Both waterproof and corrosion resistant, our speakers boast a crisp, clear sound and an amplification system provides true music fidelity.

Vita Tunes: Sony AM/FM/CD/MP3/Satellite Ready Stereo (700 Series)

Surround Sound: Sony AM/FM/CD/MP3 Stereo (300 Series)

300 Series Stereo Speaker

# Standards & options

## AquaGlo™

Immerse yourself in peaceful warm water as the excitement of sight and sound lull you into seclusion and harbor you from the rigors of the day. Like music, the ever constant flow of water cascades around you while a brilliant exhibition of lighting features somehow suggest an image of calm or finality. These things are all components of AquaGlo, a combination of water and light enhancements that truly differentiate the 700 series from an average spa. The following features are all components of AquaGlo.

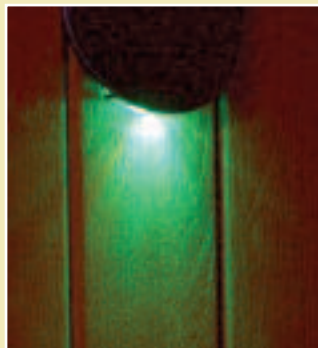

## Cascading Water Features

Many spas have some form of water feature, but few, if any go to the extreme of the 700 series. Most models have multiple water features, such as the Rendezvous, which has a combination of waterfalls, cascades and even fountains, eight in total, combined with accent lighting to make your Vita Spa experience a nightly event to remember.

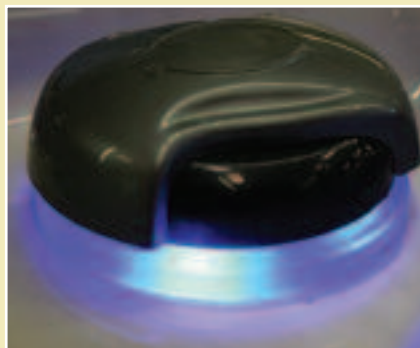

## Trevi Fountain

Once only available as an option, this feature is now a standard feature on most 700 series spas. A true laminar stream of water rises above the waters surface providing a soothing visual and sound effect. The water stream is back lighted for further visual enhancement.

## Exterior Accent Lighting

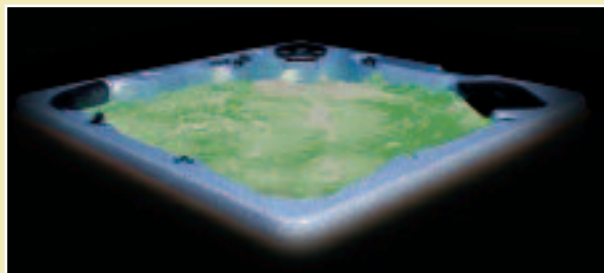

Call it a final touch if you will, AquaGlo's exterior lighting feature offers a touch of class while also providing a very practical lighting source to help guide you to the entry of the spa.

## Illuminated Controls

Diverter valves and air controls are illuminated for easy use in dim lighting situations.

Standard on (700 Series)

## Aqua Burst™ & Aqua Burst Plus

The lights of the Aqua Burst system add a phosphoresce-like luminescence to the water, skimming the surface of the water in a kaleidoscope of changing colors. Or, simply pick your color of choice.

## Lighted Cup Holders

A comforting dip in a hot tub accompanied by a glass of your favorite beverage is the perfect combination and now, with Vita Spa's lighted glass holders you will never forget where you set that drink.

# More options

## Natural Stone

Our stunning, and natural looking stone cabinetry is built to withstand harsh weather conditions, durable, and most of all, easy to clean.

Mohave

Charcoal

# The Vita Spa Commitment

Owning a Vita Spa is not only soothing, but also very smart. A Vita Spa is not an ordinary purchase, but an investment. An investment in your well-being and that of your family. An investment that will provide endless enjoyment and happy returns for many years to come.

We guarantee it.

For over 30 years, Vita Spa has been synonymous with quality, comfort, value and innovation. We strive to continue the tradition. Your satisfaction is important to us.
